08 November 2023

Dear Dr K Cummings and team

## National GP Patient Survey Results 2023

At the September Primary Care Operational Group, members reviewed the GP patient survey results for 2023.

The Group would like to congratulate you on the results from your GP patient survey for 2023. Your results were consistently higher than the National and West Yorkshire average.

Your continued efforts to provide high quality services to your patients are much appreciated and acknowledged. We hope you will take the opportunity to share your GP patient survey results with your Patient Participation Group and to share how you have achieved these results with your Primary Care Network.

Yours sincerely

Dr Abid Iqbal  
Independent Medical Advisor

Dr Ibrar Ali  
Independent Medical Advisor

Catherine Wormstone  
Director of Primary Care
